BRING YOUR STORY TO LIFE

Create a beautiful display case that tells the world who you are.

A DISPLAY THAT IS TRULY YOURS

Display cases give you the opportunity to highlight your culture, history, accolades and treasured pieces, all of which represent who you are and what matters to you. Tablet & Ticket is honored to help share your story with the world by creating products with configuration in mind.

With durable materials and carefully considered construction, each fully customizable case is built to last the lifetime of your building. We are confident your case will not only keep your accolades secure but make them the focal point of your space.

One case does not fit all. The level at which we offer customization echoes our belief that display cases are storytellers. We want you to experience feelings of pride, joy, nostalgia and confidence with every glance you take. Communicate what is important and memorable to you through photographs, accolades, mementos or even collectibles. It's your case, introduce who you are and what you value.

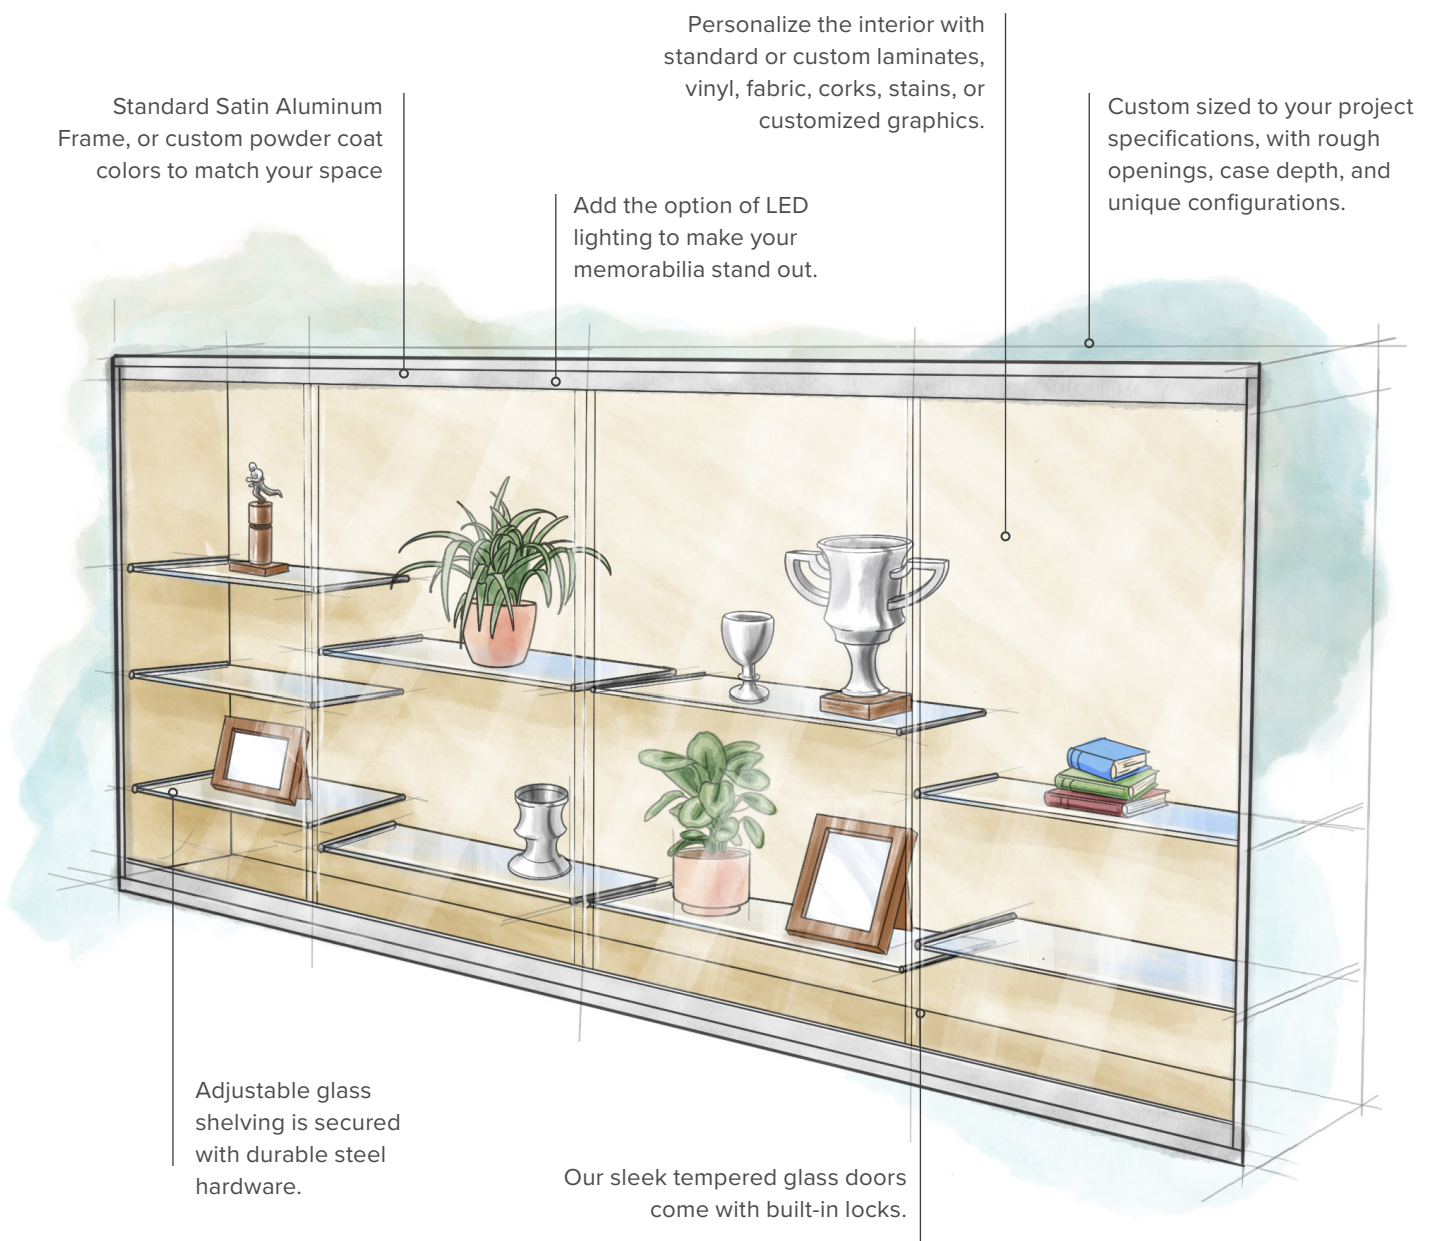

MAKING CUSTOMIZATION WORK

With so many combinations to choose from, there are a few things to consider before bringing your case to life.

- **What memories and accomplishments do you want to share?**
- **What does your company believe in or advocate for?**
- **Where will your case be located?**
- **What colors and finishes will compliment your décor or fit your brand?**

All of these considerations will give your case a look and feel that tells your story best.

900 DC FULLY RECESSED DISPLAY CASES

A fully recessed aluminum display case designed for seamless wall integration, featuring tempered glass doors, flexible shelving options, and customizable finishes for high-end interior applications.

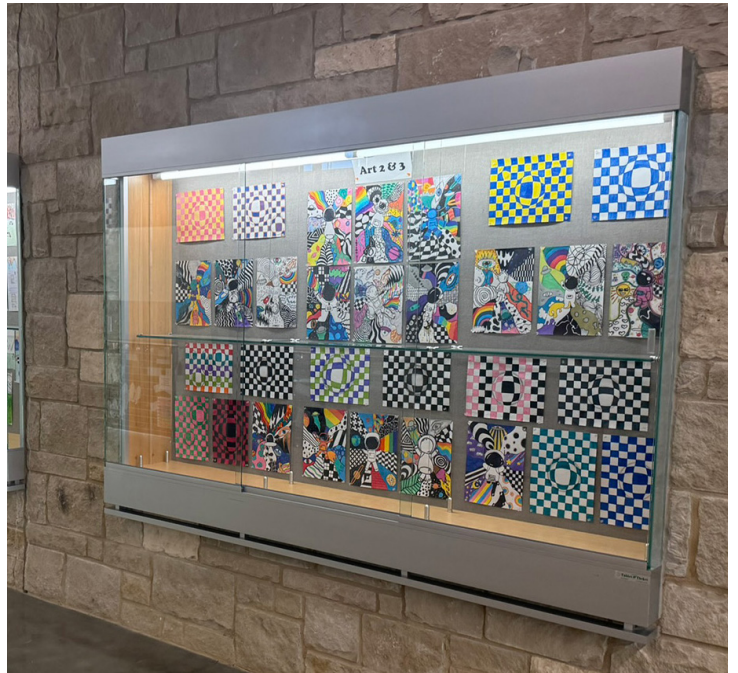

Product Details

- **Fully Recessed Design:** Integrates seamlessly into wall openings for a clean, architectural appearance with minimal visual disruption
- **Door Styles:** Available with sliding or pivoting tempered glass doors, offering varying frame profiles to suit aesthetic and security requirements
- **Shelving Configurations:** Options for suspended glass shelving or standard bracketed shelves, all fully adjustable to accommodate trophies, awards, and memorabilia
- **Interior Panels:** Choose from a selection of tackable, durable, or decorative interior surfaces to complement the surrounding space.
- **Finish Options:** Aluminum anodized frames come standard, with options for customization with powder-coated frames
- **Security:** Locking options are available to support secure display in public or high-traffic environments
- **Sizing & Customization:** Offered in a wide range of standard and custom sizes, with engineering review available for larger or unique installations.

900 GR SEMI-RECESSED DISPLAY CASES

A semi-recessed display case with a defined wall projection, offering tempered glass door options, flexible shelving, and integrated lighting for secure, high-visibility displays.

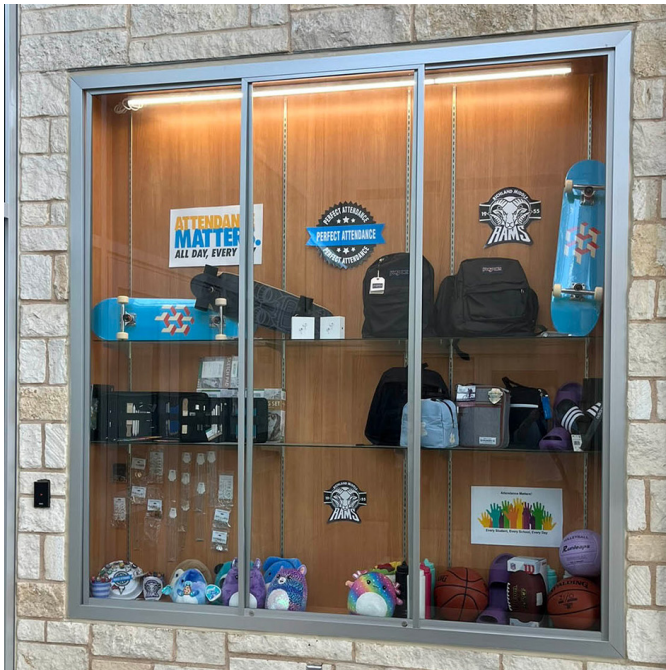

Product Details

- **Semi-Recessed Design:** Designed to partially recess into wall openings with a consistent front projection, creating a strong architectural presence while maintaining a built-in appearance.
- **Door Styles:** Available with sliding or pivoting tempered glass doors, with multiple frame profiles to balance visibility, durability, and security.
- **Shelving Configurations:** Supports a range of shelving layouts, including standard brackets and hanging systems, to accommodate various display objects and depths.
- **Lighting Options:** Optional integrated LED lighting enhances visibility and presentation, with multiple lighting styles available
- **Interior Back Panels:** Choose from a selection of tackable, durable, or decorative interior surfaces to complement the surrounding space.
- **Finish Options:** Aluminum anodized frames come standard, with options for customization with powder-coated frames
- **Security:** Locking options are available to support secure display in public or high-traffic environments
- **Sizing & Customization:** Offered in a wide range of standard and custom sizes, with engineering reviews available for larger or unique installations.

1400/1500/1600 RECESSED DISPLAY CASES

A fully recessed aluminum display case with capping angles designed for clean wall integration, featuring tempered glass bypass doors, flexible shelving options, and integrated lighting for secure, professional displays.

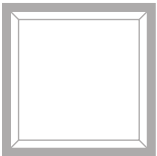

Product Details

- **Fully Recessed Design:** Designed to install flush within wall openings, creating a streamlined, built-in appearance suited for corridors, lobbies, and institutional spaces.
- **Door Configuration:** Tempered glass sliding doors provide easy access while maintaining visibility with a compact footprint
- **Shelving Configurations:** Supports a range of shelving layouts, including standard brackets and hanging systems, to accommodate various display objects and depths.
- **Lighting Options:** Optional integrated LED lighting enhances visibility and presentation, with multiple lighting styles available
- **Interior Back Panels:** Choose from a selection of tackable, durable, or decorative interior surfaces to complement the surrounding space.
- **Finish Options:** Aluminum anodized frames come standard, with options for customization with powder-coated frames
- **Security:** Locking options are available to support secure display in public or high-traffic environments
- **Sizing & Customization:** Offered in a wide range of standard and custom sizes, with engineering reviews available for larger or unique installations.
